

## GUIDA MISURE ANELLI

Stampa questa pagina A4 e appoggia un tuo anello sopra ad un cerchio. Quando il cerchio ed il diametro interno dell'anello combaceranno avrai trovato la tua taglia.

Se vuoi indossare un singolo anello usa un campionario che sia simile a quello che vuoi comprare perchè la misura può variare a seconda dell'altezza dell'anello.

Se vuoi indossare più anelli sullo stesso dito ricordati di comprare anelli di una misura più grande rispetto alla tua.

Controlla se la tua stampa è corretta!

La scala qui sotto  
misura esattamente 50 mm.
